

Arizona Crime Prevention Association

2013 Annual Report

Arizona Crime Prevention Association
Attn: Crime Prevention Unit: 75 East Civic Center Drive
Gilbert, Arizona 85296
(480) 635-7521

Crime Prevention Defined

The Arizona Crime Prevention Association supports the following definition of Crime Prevention:

Crime Prevention is the anticipation, recognition and appraisal of a crime risk and the steps taken to eliminate or reduce the risk.

Principles of Crime Prevention:

The National Crime Prevention Council has identified the following principles of Crime Prevention:

Crime Prevention is:

- everyone's business
- more than security
- a responsibility of all levels of government
- linked with solving social problems
- cost effective

Crime Prevention requires:

- a central position in law enforcement
- cooperation of all elements of the community
- education
- tailoring to local needs and conditions
- continual testing and improvement

Crime Prevention improves:

- the quality of life for the community and its residents

Mission Statement of the ACPA, Inc.

The mission of the ACPA is to focus attention on local, state and regional issues related to crime prevention and provide a forum for the exchange, coordination and teaching of ideas, concepts and programs pertaining to the reduction of crime.

Description of Programs and Services

The Arizona Crime Prevention Association (ACPA) has been providing crime prevention services to Arizona since 1977 and officially became a Corporation in 1993. The majority of the Board of Directors is made up of individuals working in law enforcement as well as some successful, local business and community members. All members of the Board serve voluntarily and no paid staff exists.

The purpose of the Arizona Crime Prevention Association is:

- To provide a forum for the exchange, coordination, and teaching of ideas, concepts and programs pertaining to the reduction of crime. This is done by offering a variety of specialized training and education sessions, meetings, conferences and webinars for the citizen's of Arizona as well as specialized training for law enforcement.
- To focus attention on local, regional, state and national goals and issues relating to crime prevention. This is done through the development and delivery of specialized public programs and focused public advertisement. This includes the production and delivery of educational television commercials distributed and aired statewide as well as interviews for newspaper and radio stations on current crimes and prevention methodology.
- To encourage extensive citizen and community involvement in the reduction of crime and criminal activity. Our organization does this through the hosting of various Citizen and Business Safety Forums. Offered annually in partnership with law enforcement throughout the state, these educational sessions provide an opportunity for individuals to gain knowledge about particular crime trends, programs, services and products. These sessions also gives individuals the opportunity to network with local police representatives.
- To develop strategies which promote crime prevention planning and implementation for Arizona citizens. Currently the ACPA, Inc. has developed a state database for distribution of police information to the general public called BoloCop. Through this program, the website allows law enforcement to easily distribute police related information and crime alerts directly to focused business and community members via email, text and/or facsimile transmittal. The website is www.Bolocop.com with plans to expand nationally in the future.

The organization provides the following programs and services:

- 1.) Specialized training: The ACPA, Inc. recruits, develops and delivers training on a variety of crime related issues to sworn and civilian members of law enforcement, corporate loss prevention staff, civic organizations, government and citizenry of the state.
- 2.) Child Identification Clinics: In partnership with law enforcement throughout the state and the Center for Missing and Exploited Children, the ACPA, Inc. provides parents a laminated child identification card, as well as a cd of information specific to their child to include digital fingerprints, photos, video and audio files. These digital files can be easily emailed to law enforcement by the parents should it be necessary.
- 3.) Public Secured Shred: In partnership with law enforcement and various mobile shred companies, the ACPA, Inc. hosts public, secured shredding. This opportunity allows citizen's the ability to shred personal documents which reduces the chances of becoming a victim on identity theft.
- 4.) Crime Prevention Advertisement Campaigns: In partnership with law enforcement agencies throughout the state as well as various city cable and public television networks, the ACPA, Inc. produces and provides a variety of education and public safety prevention videos. These videos distributed through various police agencies assist in delivering messages to the general public about such current crime issues as the dangers of social networking sites, leaving property in your vehicle, theft of intellectual property and child safety.
- 5.) Statewide launch of a new program known as BOLOCop, which will allow police agencies to prepare and send crime alerts statewide to focused business and community members. BOLOCop.com will be launched nationally in the future.

ACPA Membership

The ACPA had 129 members in 2013 consisting of 22 law enforcement agencies, 7 state or county public safety organizations and 6 businesses. Members include 19 Lifetime:

- Lifetime - 19
 - Bruce Wall
 - Mark Ruffennach
 - Janet Clayton
 - Kelly Brauer

Crime Prevention Through Environmental Design (CPTED)

**This 3 day course will cover Basic CPTED
principals and several Advanced CPTED topics
including CPTED for Schools.**

**Even people who have attended CPTED classes before
should find this course beneficial with the
combination of advanced topics as well as a great
refresher on the basics.**

About the instructor

Art Hushen is the President of NICP, Inc. He received his Crime
Prevention Practitioner Certification and CPTED Designation
through the Florida Crime Prevention Training Institute

Art is an instructor for the Florida Attorney General's Office,
specializing in Basic and Advanced CPTED, Making Schools Safe by
Design, and CPTED & Critical Infrastructure as well as the
American Crime Prevention Institute and Fox Valley Technical
College specializing in CPTED. Art holds a Bachelor of Arts degree
in Criminology from the University of South Florida.

Who Should Attend?

A Must for Law Enforcement Officers, Planners, Architects,
Community Oriented Policing Officers, School Resource Officers,
Security Consultants, Crime Prevention Officers, and Educators.

INTERNATIONAL CRIME PREVENTION SPECIALIST TRAINING & TESTING

April 2-4 2013 – Scottsdale, Arizona
Scottsdale Police Department's District One Substation,
7601 E. McKellips, Scottsdale, AZ 85257

The International Society of Crime Prevention Practitioners (ISCPP) in cooperation with the Arizona Crime Prevention Association (ACPA) will present a three-day International Crime Prevention Specialist (ICPS) Training that will culminate with the ISCPP's ICPS Test.

Who: Anyone interested in learning more about crime prevention. This includes crime prevention officers, crime prevention specialists, unit supervisors, volunteers, loss prevention managers, and security professionals.

Cost: The cost is \$275 per person. **SPECIAL RATE of \$225 for ACPA Members.** Registrants will receive a copy of the ICPS Crime Prevention Curriculum, training & test fees, and a one-year membership to the ISCPP.

What: The three-day Training will give attendees a solid foundation of crime prevention knowledge, a 500+ page crime prevention curriculum to use as a resource after the Training, and excellent preparation for the ICPS Test. It won't make you an instant crime prevention expert – that takes years of study and fieldwork – but it will give you the basics and the resources so you can continue to learn and improve!

This three-day training will cover the following 15 core subjects:

- | | | |
|-------------------------------|------------------------------|-----------------------------|
| ★ History of Crime Prevention | ★ Three Lines of Defense | ★ Armed Robbery |
| ★ Check Fraud | ★ Child Safety | ★ Credit Card Fraud |
| ★ CPTED | ★ Crimes Against the Elderly | ★ Domestic Violence |
| ★ Identity Theft | ★ Lighting for Security | ★ Neighborhood Watch |
| ★ Public Speaking | ★ Security Surveys | ★ Sexual Assault Prevention |

In addition, each student will select 5 of the 13 electives (see page two for the complete list of electives) for a custom test.

Instructors:

All instructors have attained the ICPS Designation and are or have been practicing crime prevention specialists with exceptional presentation skills. There may also be instructors who have an expertise in a particular crime prevention topic.

Frequently Asked Questions:

Is this a certification class? No, this is not a certification class. Once you pass the ICPS Test, you will receive the ICPS designation from the ISCPP stating you have demonstrated basic knowledge of crime prevention. If this was a certification class, it would require re-certification annually or bi-annually.

Is there a test at the end of the class and is it easy? Students who attend the training find the test to be challenging, but most people will complete the test satisfactorily. If you haven't attended the training, most people find the test ranging from daunting to impossible.

What do I receive at the end of the class? A 500+ page crime prevention resource book, a one-year membership to the ISCPP, and hopefully the ICPS designation.

TECHNOLOGY IN POLICING LAW ENFORCEMENT ONLY

MICHELE STUART is a licensed Arizona Private Investigator with twenty years of experience specializing in Open Source Intelligence. Additionally, Ms. Stuart is an Adjunct Professor with the University of Virginia and an Instructor at Quantico. She is a highly sought after speaker, training local, state and National Law Enforcement Agencies throughout the United States.

SY RAY is a Detective with over 17 year of experience and is a subject matter expert in reference to Geolocation of cell phones as it pertains to criminal investigations. Detective Ray instructs classes all over the United States in reference to criminal investigations utilizing cellular technologies. He is commonly called on as an expert in this field and has assisted numerous agencies in the United States and Internationally with Geolocation principles.

BACK BY POPULAR DEMAND: Michelle's class, "Internet Profiling & Intelligence Gathering" was rated "one of the best trainings presented by the ACPA, Inc." in 2009 and the ACPA will be bringing Ms. Stuart back for another intense training. Ms. Stuart's step by step demonstrations will show you how to utilize the internet through manipulation to locate and build a complete profile of an individual or company and show you things about the internet you never knew existed.

CELL PHONE GEOLOCATION: The utilization of cellular records, real time and historical, to determine a general location of a cellular device. Sy's class covers the challenges and capabilities available to law enforcement in utilizing cellular records to further investigations, locate suspects and evidence, and presenting the information in court. Sy has recently developed a Smartphone Application for Android and iPhone to aid law enforcement in identifying cellular providers and providing current contact information. This application will be made available, free of charge, to all attendees.

When: Tuesday, April 16, 2013 from 9:15 a.m. until 5:00 p.m.
Registration 9:00 - 9:15 a.m./Working lunch and snacks provided!

Where: Burton Barr Library - 1221 N. Central Ave, Phoenix 85004
(Doors open at 9:00 a.m.)

Cost: Free to ACPA Members - \$50.00 to Non-Members. Price includes your 2013 ACPA Membership FREE of charge! Please complete the ACPA membership form when registering for this class if not a current member!

The National Crime Prevention Council in partnership with the Financial Investors Regulatory Authority (FINRA) created the 2013-2014 Crime Prevention Month Kit. On page 8, FINRA named the Arizona Crime Prevention Association as one of their partners who has worked with them to spread the word on investment fraud.

FRAUD PREVENTION IS CRIME PREVENTION

Pilot Programs in Washington State and Arizona lead the way

Crime prevention practitioners have proven to be powerful fraud prevention outreach partners at the local level. Since 2009, the FINRA Foundation has partnered with the Washington State Crime Prevention Association (WSCP) to deliver hundreds of *Outsmarting Investment Fraud* presentations to thousands of consumers. WSCP has also distributed tens of thousands of DVDs and *Fighting Fraud 101* brochures throughout the state. In 2011, the Arizona Crime Prevention Association joined the effort. The messages have resonated with local populations — and have even led to the discovery of scams. NCPC and the FINRA Foundation have now joined together to train even more fraud fighters. This year, we trained new partners in Alaska, Connecticut, Florida, Idaho, Kentucky, Montana, Nevada, New York, Rhode Island, Texas, Utah, Virginia, and Wisconsin. Join the cause!

Maricopa County Attorney's Office • March 2013 Newsletter

CRIME PREVENTION ORGANIZATION MAKING A BIG EXPANSION

The Arizona Crime Prevention Association (ACPA) hosted a Crime Prevention Day February 13, 2013, at the Capitol to increase awareness of current crime prevention resources and programs in Arizona.

68 legislators and their staff visited dozens of displays that provided information on how Arizona law enforcement agencies, including the Maricopa County Attorney's Office, are keeping their community safe.

The event also featured free document shredding. Shred It collection trucks were parked on 17th Avenue for convenient drive-through access and MCAO volunteers helped shred 13,767 lbs. of personal documents for the community. The MCAO investigators also collected nearly 70 pounds of prescription drugs to be safely destroyed, keeping them out of the hands of abusers.

Also in attendance was a couple of old favorites, McGruff, the Crime Dog and Deputy Do-Right.

The ACPA, is a non-profit organization made up predominantly of law enforcement agencies like the Maricopa County Attorney's Office. Since 1977, the group has brought law enforcement, local businesses and community members together in an effort to prevent crime in Arizona. ACPA also provides training across the state, hosts child ID and fingerprint clinics and holds numerous public safety and prevention events throughout the year.

Most recently the ACPA embarked on implementing BOLOCOP (formerly FaxNet1). This represents a major effort as they move from a statewide to a nationwide website platform (alert system). The BOLOCOP website utilizes the most up-to-date technology in providing police agencies an easy method of distributing crime-related information to local community and business groups as well as linking possible crimes.

On Behalf of the Arizona Crime Prevention Association, Thank you for another great year!
